CATALANO

NEW PRICELIST
COMING THIS SPRING

NEW LIGHT:

Catalano has recently introduced its most affordable series of washbasins yet! New Light consists of three possible sizes, all available with 0, 1 or 3 hole drillings, suitable for wallhung, semi-inset or top mount installation. Towel Rails complement each size within this series as well. Contrary to what some might think, these are 100% produced in their 1.7m square foot facility in Italy.

\$499 IN STOCK

10L

WASHBASIN
\$599 IN STOCK

PREMIUM:

Catalano Premium is another new series of washbasins, which consists of 8 possible basin sizes and a variety of matching wallhung toilets and bidets. The minimalist style of these basins, with a thinner profile than the Zero series, is a perfect replacement for discontinued items such as the 70VN and 55VN. The most notable advantage though, may be the price!
