

## PRODUCT FEATURE

### MR.STEAM ISTEAM

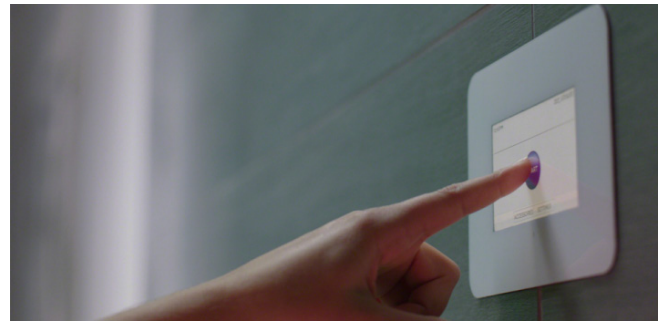

What do Movado, Lamborghini, and Mr. Steam's revolutionary iSteam have in common? Effortless elegance.

The iSteam's revolutionary touch screen display and feature-rich menu offer an unsurpassed, customizable user experience. Along with a stunning graphic interface and bespoke design by world-renowned Industrial designer David Farrage, whose experience with Movado™ and Lamborghini™ is evident in iSteam's contemporary styling.

High tech meets high touch with the iSteam home steam shower control. As easy to use as a smartphone, the highly intuitive LCD touch screen features beautiful graphics and high-performance in wet environments.

iSteam is available in white or black. Please see the 2013 price list for more details.

### MR.STEAM AUDIOWIZARD

Play your favorite music when you relax in a steam shower. Mr.Steam offers several options to fully engage the senses with steam shower audio systems.

- Seamlessly connects to a dedicated in-shower remote or the premier iSteam Touch to control play/pause, last track, next track, mute and volume.
- Includes an AUX connection, allowing you to hook up a CD player, television set, iPad and more.
- Pairs up to eight audio devices and up to four speakers for complete bathroom and shower coverage.

- Audiowizard is a streaming Bluetooth(tm) sound system that can be used in any shower, with or without a Mr. Steam shower system.
- Plays digital music files or internet radio wirelessly, from your smartphone or device.
- Has one convenient wall-mount stainless steel enclosure that includes the amp and power supply with simple plug-and-play connections for the control and speakers.

See page 13 of the 2013 price book for more information.

**Note:** mrsteam.com has been completely renovated and transformed. It now has beautiful images and videos that everyone might find helpful when selling a steam shower or any of their accessories.
